Art Unit: 3722

1. Claims 17-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no basis in the specification as originally filed for a combination drill and tap or the cutting members being configured to spot face or counterbore.

2. Claims 13-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The “contact point” of claim 1 does not have antecedent basis. The scope of the phrase “similar resilient component” in claim 13 can not be determined. The “cutting edge” and “non-cutting edge” of the tap of claim 13 do not have antecedent basis. The “critical angle” of claims 14, 15, and 16 does not have antecedent basis. The “cutting edge” of the deburring tool of claims 14-16 do not have antecedent basis. The “relieved non-cutting edge” of claims 14 and 16 and the “non-cutting relieved edge” of claim 15 do not have antecedent basis. Care should be taken throughout the claims to differentiate between the cutting and non cutting edges of the tap and the cutting and non-cutting edges of the deburring tool. Claim 18 should refer to previous claims 14-16 in the alternative only. Claims 13-16 have a dearth of commas, such that it is difficult to determine where one concept ends and another begins. The claims should be properly punctuated so that the claims read clearly. In numerous locations throughout the claims, possessive nouns lack appropriate apostrophes, such that they sometime appear to be verbs. Examples are tap’s, hole’s, and tool’s, and appropriate correction is required.

Art Unit: 3722

3. Claims 13-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

4. Applicant's arguments filed February 23, 2004, have been fully considered but they are not persuasive. While no art rejection has been made, it is clear from above that several issues need to be addressed. The above issues resulted from the amendment filed on February 23, 2004.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
